## SUPPORTING CANADA'S SPORT SYSTEM

National Sport Organizations (NSOs) are the governing bodies for sport in Canada. There are 62 in total which span the country. Through your generosity, the Foundation provides funding to NSOs to support their next generation athletes.

The Canadian Olympic and Paralympic Sport Institute Network (COPSI Network) provides world-leading training environments to high-performance athletes and coaches across Canada. These include everything from gyms to workout in to easier access to sport nutrition and sport medicine. The COPSI Network includes four Canadian Sport Institutes (Pacific, Calgary, Ontario and Québec) and three Canadian Sport Centres (Saskatchewan, Manitoba and Atlantic). Providing annual funding to these essential and elite centres is a priority for the Foundation so our athletes can train in leading-edge facilities as they work towards their Olympic dreams.
